**Funding update:** we will be notified of our current funding applications at the end of March.

**Tennis NSW Review of clubs:** All clubs in our area have been independently reviewed in a program coordinated by Tennis NSW. The review took into account quality of facility, financial status and participation. Englands Park was rated as Healthy with our participation in the excellent category. This is a great outcome. We continue to work on improving the club and this review provided recommendations to assist us in this including improving communication using social media, upgrading facility to improve access for all abilities. Financially the report confirmed we are able to renew and maintain a facility into the future however grants will be needed for major improvements. As a community club we excel and our online booking system ranks us highly for accessibility.

The gallery manager speaking to the artist about his paintings:

Manager - I have good news and bad news. The good news is that someone liked your work and asked if it would appreciate after your death. When I said yes, he bought all 20 of your paintings.

Artist - But that's fantastic, what could possibly be the bad news?
